

## BATH XR NOVEMBER NEWSLETTER 25.11.21

It's been a busy time over the last few weeks with Bath rebels in actions in Glasgow, London, Weston super Mare, Westbury, Bristol, Trowbridge and Bath.

And our Bath rebel, Steve Pritchard, has been taking action with Insulate Britain. What was at first anticipated to be a couple of motorway roadblocks escalated into multiple sit-ins when the police decided to try and keep this movement low profile by not putting sitters on remand as was expected. Nine Insulate Britain activists are now in jail with many more court cases due in the next few weeks. Steve has now been arrested 12 times and received countless injunctions (he's weighing them in kilos - and has now broken six of them) for his work in trying to persuade the government to reduce our CO2 emissions, protect lives and provide employment. National Highways Ltd are now preparing to sue for damages. Thank you, Steve, for all you are doing.

If you haven't yet seen the images from COP26 in Glasgow, here's the link to see what XR Bath was up to. XR Frome, Bath, Salisbury, BoA, Chippenham, Wiltshire climate alliance, Wiltshire incinerator group and more. With Faceless Bureaucrats leading the Samba, 20 people did a die-in then the FBs with the burning world walked into the Council to the front of the Council Chamber, wearing signs identifying themselves as the councillors who had actually voted for the incinerator and announcing how they had contributed to ecocide.

Incinerator was approved by the Council, supported by Tories opposed by LibDems and independents.

20 November [March of Resistance](#) in support of Insulate Britain. Started outside the Royal Courts of Justice, then hundreds of people marched along the north Embankment, past the Houses of P, onto Lambeth Bridge where everyone sat down and listened to powerful speeches as the partners of the nine imprisoned IB activists read from their statements. Four Bath rebels remained on the bridge with 30 others (34 arrests in all), as the remaining crowd moved on to Vauxhall Bridge where three roads were blocked. 124 arrests in all.

Many people missed seeing the video of the "Shell knew" banner outside the Science Museum in October - [here it is again](#). This amazing banner has been used again and again, by XR Bath and by other local

groups and climate activists - huge thanks to Ros for her brilliant concept and letter cutting and to Mel for endless stitching. The idea and how to make it is now being shared with many others via the XR Rebel Toolkit.

COP HAS FAILED: IT'S UP TO US NOW

Our [XR address](#) to the Nation:

## EVENTS, ZOOMS, TRAINING, FEEDBACK

### XR ANNUAL STRATEGY REVIEW

XR is formulating its annual strategy review. They want to know what rebels throughout the UK think about the following questions:

- 1) What are we as a movement good at? What are we built to do well?
- 2) What do rebels want to put their energy into? What are they most inspired to do?
- 3) What are the obstacles to this? What would help grow your local groups?
- 4) What do our rebels on the ground most need from a strategy?

Please send your responses to [bathxr@gmail.com](mailto:bathxr@gmail.com) and we will collate them into our response. Deadline Sunday 12 December please.

**CAN I LIVE?** Fantastic film to share with younger peeps to inform and engage . . .

Costs £1 to view but a lot of people are raving about it. Last few days.

An online filmed performance produced by Complicité in association with the Barbican, London, supported by Oxford Playhouse

Why don't we talk about it? Fehinti Balogun asks this urgent question and offers an invitation in *Can I Live?*, a vital new digital performance about the climate catastrophe, sharing his personal journey into the biggest

challenge of our times. Weaving his story with spoken word, rap, theatre, animation and the scientific facts, Fehinti charts a course through the fundamental issues underpinning the emergency, identifying the intimate relationship between the environmental crisis & the global struggle for social justice, and sharing how, as a young Black British man, he has found his place in the climate movement.

## RESEARCH HELP NEEDED

"We're looking for some help with researching the climate crimes of the richest/most powerful governments (which we've defined as those in G20 + Annex II). We're trying to find three charges for each of these countries.

Rosie, Paul, and I are working to divvy up the research, but we would also love a hand from anyone who's aware of what the most devastating climate crimes by each target country might be.

All we'd really need is a one-liner describing the crime and at least one reputable source. Please see our UK charge sheet for an idea of the format we are looking for. For this global charge sheet we are looking only for the actions or "crimes" - so the "what they do" section of the original charge sheet and not the "what they say" pledges."

How to Blow up a Pipeline by Andreas Malm: "It's a difficult one for XR to engage with as he is critical of NVDA and XR; plus there are better works that map the limits of NVDA as single strategy (such as Gelderloos' How Non-violence Protects the State, available online free from the anarchist library). However, there are some good arguments about targeted actions. ...
