XR BATH JANUARY NEWSLETTER 19 January 2022

NEWSFLASH: PROJECT 3.5 MASS MOBILISATION TRAINING ***NOW *** (6pm Weds 19 Jan) AND TOMORROW (Thurs 20 Jan) - info in this newsletter - IN GREEN TEXT! SORRY SUCH LATE NOTICE . .

泰黎泰黎泰黎

It's a new dawn, it's a new day, it's a new life

And it's a new year, already nearly three weeks in, and a lot to buoy us up. A string of convictions (including Shell HQ and Arms Fair) overturned last year and in the last few weeks XR rebels were acquitted by jury following obstruction of a DLR train in Oct 2019; six more acquitted by jury for a similar offence in April 2019 ("The defendants' motives chimed with the concerns of 12 citizens representative of the wider public," "The jury all agreed the climate crisis requires radical action. This reinforces the importance of both civil disobedience and juries in a healthy democracy.") Colston topplers acquitted; blind paralympian James Brown had his sentence cut by appeal Judges (the "criminal justice system" is "deeply conflicted" over climate crisis protesters); seven Insulate Britain activists (including our own Steve P) given conditional discharges from Judge Dingemans and one other got an early release. And finally our Kill the Bill protests nationwide, on the streets last Saturday and in the run up with endless phone ringing and emailing individual Peers - and all that energy and commitment bore fruit - 14 of the more extreme amendments voted out. https://www.independent.co.uk/climate-change/news/extinction-rebellion-activists-hearing-cleared-b1993297.html)

HOW TO KEEP IN THE LOOP

XR BATH BROADCAST GROUP

If you only join one chat group, this is the one - the XR BATH BROADCAST group on WhatsApp.

This is where all announcements are made and here you'll find a list of current and upcoming actions and campaigns. And a list of all our various groups, with links to the chat groups.

PAST ACTIONS

DIRTY SCRUBBERS, Chippenham 4 December

Rebels from Bath, Bradford on Avon and Chippenham gave Conservative MP Michelle Donelan's constituency office a thorough and well-deserved scrubbing. Mince pies handed out to local residents and good chats. See this <u>article</u> for a stream of supportive comments, still being added a month later.

And on <u>Instagram</u>, nearly 1700 likes from people across the globe! "This is the most British protest I've ever seen!"

GREEN OUTREACH HUB, 11 December

The hub had a Christmas theme and was a big success - here's the report from Sue Poole. REPORT

WESTDOWN QUARRY & ASHAM WOODS, Sunday 9 January

An amazing turnout for the launch of the campaign against this proposed mega quarry near Frome - around 150 people from a wide range of groups turned up for a guided walk and soup provided by Bath rebels Jenny and Adrienne. This will be an important campaign for XR Bath. A permanent camp has been set up onsite, looking for support, and there will be other planned actions. The group is organising into working groups of Outreach and surveys, Direct action, camp support and Coming on Walks - with an early evening bat walk soon.

There's an XR Bath Signal chat group - please email us at bathxr@gmail.com for the link.

PROTEST THE POLICE BILL Saturday 15 January

Bath rebels attended marches in Bath, Bristol and London.

In Bath:

Jane, Lizzie and others organised a protest march through the city centre at incredibly short notice - and it had huge support. Speeches from Lizzie, Ken Loach and others. <u>Insta</u> and <u>FB</u>. <u>Speech</u> by Lizzie on FB

In Bristol:

Hundreds turned out with some Bath samba support too. Article

In I andon

A good crowd of Bath rebels went armed with banner and placards. Mel organised a UK wide (nearly!) group of suffragettes in London - lots of press coverage: Guardian, Telegraph, Mail and elsewhere. Twitter XR Bath FB

And on Monday 17 January, peers in the House of Lords voted against 14 of the Police Bill laws. Fantastic result but lots more work to be done . . Article.

GIVE YOUR FEEDBACK on the POLICE BILL

Should police be given more power to control protests? Share your thoughts on the Police, Crimes, Sentencing & Courts bill

A message from the Kill the Bill chat on Telegram:

"Thank you to everyone sharing the digital rebellion action. Protests are super-important, but reaching out to Lords in overwhelming, never-before-seen numbers really made an difference . . .we had over 2,000 people call, write, & tweet at the Lords1,800 of those people alone sent nearly 13,500 emails . . the person answering. . was commenting that they'd never seen such an outpouring around one bill"

BATH CLIMATE EMERGENCY CENTRE

Work continues on the CEC. For more information and to get involved email bathcec@gmail.com

Report from Sue Poole: Thanks to all who took part in the vote for the name - we are now 'Climate Action B&NES' - which was by far the most popular choice (we changed from Bath to B&NES to align with the council & give scope to host spaces beyond Bath). The group also decided to apply for charitable status to give longer term independence

and opportunities for financing the centre, and we are now working our way through the myriad of documents needed to make this a reality. As this is a lengthy process we are also talking with other organisations to see if we can partner with them in the short term to get into a space whilst the Charity Commission process is on-going.

For an inspirational insight into what a climate emergency centre could look like see Zero Carbon Guildford's <u>launch</u> dayit is amazing!

PREPARE FOR XR 2022!

XR UK 2022 STRATEGY

This Sunday 23 January will see release of the 2022 XR UK Strategy, via email. It will be followed by a virtual and in-person tour (depending upon Covid restrictions). The strategy includes a timeline for the year, with clear direction and focussed actions together with messages and resources to support your local and community groups.

XR's ADDRESS TO THE NATION

In 2022 XR is planning the largest act of civil resistance in UK history. We are calling for everyone to join us. Please share this 2 minute long <u>video</u> far and wide.

XR STRATEGY ROLL-OUT IN THE SOUTH WEST, Friday, 28 January from 18:00-21:00

In person presentation and discussion: Magdalen Room, Exeter Community Centre, 17 Saint David's Hill, Exeter, EX4 3RG

Meet the XR UK Strategy team and hear about the 2022 Extinction Rebellion strategy.

This is the only real world strategy roll-out meeting planned in the South West. We welcome XR groups from across our region to hear the presentation and join the discussion on how we can implement the strategy locally and across the SW.

XR Fundraiser for APRIL REBELLION

History tells us that ordinary people taking to the streets in civil resistance will be our best shot at saving our children's future. XR is rolling out a programme of door knocking, talks and trainings, leading up to a campaign of mass civil resistance in April 2022. We demand a future where citizens are at the centre of decision-making. When we come together in powerful numbers, change is inevitable!

As we rise up, we need your support.

£20 could pay for a first aid kit to help protect a locked on rebel from harm

£50 could pay for a young rebel to travel to the April uprising

£80 can buy a banner, to send a clear message of climate emergency

£400 can buy a portable PA speaker, to replace equipment seized by police

As the gravity of our situation finally dawns on our families, friends, and neighbours, we need to be ready to help them into action. That's where we all come in, and it's where your donation can make a huge difference as we work towards our next mass civil resistance in April 2022. We know another world is possible - one that repairs the harm, prepares for crises to come, prioritises togetherness and wellbeing.

Your donation will help realise that vision. Please Donate: https://chuffed.org/project/xrapril2022

PROJECT 3.5 MASS MOBILISATION TRAINING TONIGHT (6pm Weds 19 Jan) AND TOMORROW (Thurs 20 Jan)

Project 3.5 Introduction

🌱 Everyone is in agreement: XR needs to grow. And if we're to grow at a scale and speed that will force the govt to sit up and take notice, this task requires our careful attention - and the spirit of curiosity and collaboration that gives XR its magic.

Local groups and working groups across the movement have been doing outreach since day 1 - but collectively we've never really prioritised the work of mobilisation.

🌳 In 2022 this is changing, and building towards 3.5% on the streets will once again be our guiding strategic vision. Project 3.5 is offering Local Groups a simple plan to complement this vision. We're rebels who've done loads of homework on outreach methods and organising models, and want to share this simple idea with you, hear what you think, and discuss whether it can work for your LG / County / Region.

Poem: What the Clyde said, after COP26 by renowned poet Kathleen Jamie

VIEWING

from Matt C: "HNY to all the Earth protectors in here, who did the best they could in 2021! My start to 2022 has been enriched by this (old) video, which has made me hopeful for the coming year. I hope it does the same for you." https://t.co/3e9RqFNwqW

Powerful short film on XR global- to share - to encourage friends to join XR https://twitter.com/extinctionr/status/1477215678197387264?s=21

The Troublemaker. This is a film showing the perspectives of rebel Sylvia Dell rebel of Totnes and Roger Hallam - and a quick look back at previous XR rebellions - you'll spot a few Bath rebels in there. It's on Amazon unfortunately https://www.amazon.co.uk/gp/video/detail/B08Q4FPY1V/ref=atv_dp_share_cu_r

https://inourhands.film/ People might know about this? But they've made the film available for people to organise small group viewings - and it may be available for individuals to download? Sounds interesting.

Extreme Climate Risks: What are the worst-case scenarios?

How bad could climate change get? Could the worst-cases result in global catastrophe, or even long-term human extinction? With Prof Tim Lenton, one of the authors of the 'Future of the Human Climate Niche' paper from PNAS in 2020 and an expert in tipping points.

https://www.youtube.com/watch?v=dkDbCpn0 9I&t=2148s

Dr Carmody Grey, The Hook Lecture 2021 What do We Want to Sustain? Thinking about Faith and The Climate. https://m.youtube.com/watch?v=DIEQeG3IRM4 Thought-provoking. And good speaker. Her view is that using terrifying climate facts and predictions (and even focussing on species loss, etc) hasn't worked - and won't work. She believes we need to tackle it on a deep emotional level to galvanise people - the need to belong, to be part of a community that's in danger of extinction - the planet will survive without us as will millions of species - but we won't - and the "Membership of the community of humanity has to be the fundamental form of belonging." I'm not sure I agree with all of that but it's making me question how I should frame conversations with friends. I've transcribed her talk if anyone wants to read it quickly - but she is a powerful speaker to watch.
